

Head of UI/UX

Creative, Lahore, PK

QBXNet is a startup incubator from Switzerland with its main business office located in Barcelona, Spain. We collaborate closely with our entrepreneurial clients to make exploratory and exciting projects in web, mobile and AR/VR happen. Our goal is to provide a platform to implement business ideas fastly and with exceptional quality.

For our development hub in Lahore, we are looking for a UI/UX designer with 3-5 years of experience to lead our UI/UX department. Alongside our head of UI/UX in Barcelona, you will be the design spokesperson of QBXNet and will lead the team in Lahore while coordinating on any design issues with our UI/UX head in Barcelona. Your responsibilities will range from creating designs by yourself to communicating design requirements to our development team and guiding them through relevant processes, as well as coming up with designs ideas for client projects in a short period of time.

Primary Responsibilities

- Define and evangelize the design process throughout the organization
- Define and evangelize the design process throughout the organization
- Cultivate an active debate about what makes for great user-centric designs
- Shape the environment that attracts thoughtful and creative people
- Ensure that UX Design resources are correctly aligned with company goals
- Ensure strong internal communication flow
- Keep up with relevant industry trends and apply new ideas as appropriate
- Collaborate with engineering, project, and general managers to define initiatives and projects
- Advocate for the Customer
- Foster a healthy team environment that enables productivity and high quality of work
- Set the example for work ethic, motivation, and overall culture
- Provide mechanisms for career growth of the team members, i.e. professional development and training

Requirements

- An extensive background creating interfaces, large-scale websites, or applications
- Experience leading interdisciplinary teams that create products with a focus on innovation and usability
- Ability to anticipate needs, concerns, and input from teammates across departments
- Experience interacting with senior clients and handling them in every imaginable situation
- Engaging presentation style and visual communication skills
- Openness to feedback and criticism while knowing when to defend design choices

Your Profile

- Excited about the work and able to spread that enthusiasm
- Think from the user's perspective, and strive for delivering outstanding quality
- Innovative, creative, able to work well at the head of a team and become the owner of your workstream(s)
- Fluent in English
- BS degree in Computer Science, Engineering, or equivalent

About Us

- We love innovation and new technologies
- We exclusively work on exciting products in which we honestly believe
- We believe in working with outstanding people and giving them great opportunities they deserve
- Our culture is creative and results-driven
- We believe in flat hierarchies; everybody is encouraged to bring in his or her opinion and ideas
- Be entrepreneurial and challenge our thoughts, or present us your own ideas - we will be happy to discuss how we can make it happen

QBXNet is an equal employment opportunity employer. Qualified applicants will receive consideration for employment without regard to any personal aspects. We are increasing our team size continuously and currently grow on a fast pace together with our customers across Europe and in the US. It's a great time to join.
