

Junior iOS Developer

Mobile, Lahore, PK

QBXNet is a startup incubator from Switzerland with its main business office located in Barcelona, Spain. We collaborate closely with our entrepreneurial clients to make exploratory and exciting projects in web, mobile and AR/VR happen. Our goal is to provide a platform to implement business ideas fastly and with exceptional quality.

For our development hub in Lahore, we are looking for a great Junior iOS Developer to join our existing team and help them build amazing iOS applications. You will be part of the projects from assisting in the collaboration with design and architecture to testing and maintaining across our diverse work portfolio – but your greatest contribution will lie in the development work itself. To be both successful and have fun in this position, you have to be a team player with both a strong background in iOS development and a creative mindset.

Primary Responsibilities

- Create top-notch iOS apps focusing especially on UI/UX across a broad range of use cases
- Understand business rationale and focus on customer user experiences
- Deliver high quality technical designs, with outstanding functionality and performance
- Improve functionality, find bugs and create new features for our apps
- Work in a team with our designers, backend development team and the project managers in an agile and creative way
- Set the next standards of user interfaces through research and continuous training
- Become adept at the most cutting-edge technologies (e.g. shipping apps for Apple Watch)
- Help us in expanding and nurturing our great team

Requirements

- 1+ years of iOS app development experience
- Good eye for developing UI/UX which works well on any given iOS device
- Knowledge of memory management and continuous integration
- Strong understanding of Objective-C language and Cocoa framework
- Ability in networking, local data caching, and multi-threading
- Good problem solving, critical thinking and communication skills
- TDD is a big plus

Your Profile

- Think from the user's perspective, and strive for delivering outstanding quality
- Be innovative, creative, work in a team and become the owner of your workstream(s)
- Fluency in English
- BS degree in Computer Science, Engineering, or equivalent

About Us

- We love innovation and new technologies
- We exclusively work on exciting products in which we honestly believe
- We believe in working with outstanding people and giving them great opportunities they deserve
- Our culture is creative and results-driven
- We believe in flat hierarchies; everybody is encouraged to bring in his or her opinion and ideas
- Be entrepreneurial and challenge our thoughts, or present us your own ideas - we will be happy to discuss how we can make it happen

QBXNet is an equal employment opportunity employer. Qualified applicants will receive consideration for employment without regard to any personal aspects. We are increasing our team size continuously and currently grow on a fast pace together with our customers across Europe and in the US. It's a great time to join.
