Junior Software Engineer

Development, Lahore, PK

QBXNet is a startup incubator from Switzerland with its main business office located in Barcelona, Spain. We collaborate closely with our entrepreneurial clients to make exploratory and exciting projects in web, mobile and AR/VR happen. Our goal is to provide a platform to implement business ideas fastly and with exceptional quality.

We are looking to hire a Junior Software Engineer (Backend) at our development hub in Lahore, which will entail work from Web Api development to computation of intensive planning and scheduling engines. We are looking for people who are excited about working with different technologies, as we firmly believe in using the right tools for the right job. Furthermore, we seek out people who are extremely motivated and proactive when executing their tasks, while at the same act as team players who know both when to ask for help and when to provide others with assistance.

Primary Responsibilities

- Design, develop and deploy solutions in collaboration with team leads and product owners
- Design your solutions to be scalable
- Write units tests
- Communicate status with stakeholders

Requirements

- Understanding of OOP and Software Design patterns.
- Has experience in web development.
- Well versed in at least one of the following: Ruby, Java, .Net, PHP or Python
- Comfortable with learning and switching to other technologies
- Has experience in MySQL
- Basic understanding of HTML, CSS and Javascript
- Basic understanding of version control tools such as SVN or GIT
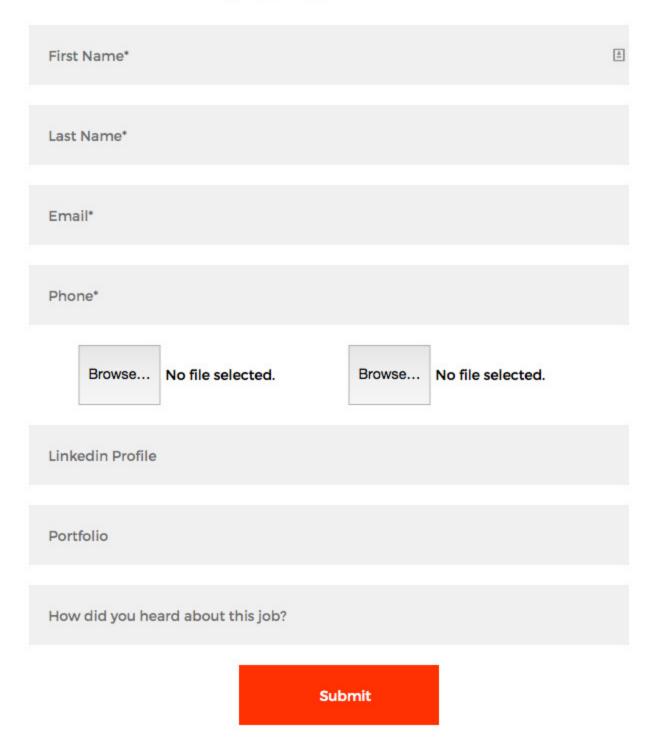

Your Profile

- Bachelors or Masters in Computer Science
- Think from the user's perspective, and strive for delivering outstanding quality
- Be innovative, creative, work in a team and become the owner of your workstream(s)
- Comfortable with learning and switching to other technologies
- Fluency in English

About Us

- We love innovation and new technologies
- We exclusively work on exciting products in which we honestly believe
- We believe in working with outstanding people and giving them great opportunities they deserve
- Our culture is creative and results-driven
- We believe in flat hierarchies; everybody is encouraged to bring in his or her opinion and ideas
- Be entrepreneurial and challenge our thoughts, or present us your own ideas - we will be happy to discuss how we can make it happen

QBXNet is an equal employment opportunity employer. Qualified applicants will receive consideration for employment without regard to any personal aspects. We are increasing our team size continuously and currently grow on a fast pace together with our customers across Europe and in the US. It's a great time to join.
